

INVITATION

Phast and Safeti Seminar and Workshop

1 & 2 November 2012 - 09:00-17:30 (one day event, choose date)

Venue: SIL Office, Tokyo, Japan

User seminars and workshops are key part of the process of communicating with customers to share on what's new as well as identify needs and discuss problems. This is a unique forum for us to demonstrate recent releases and share plans for the future as well as gathering feedback on your application of the software and requirements.

PRELIMINARY AGENDA

■	Phast 7.0 overview
■	Phast 7.0 upgrade workshop o Content will include new functionality and layout, how things work
■	Safeti o Explosion modelling and vulnerability modelling with Safeti o Extended risk reporting
■	Latest modelling developments
■	Phast Offshore

Who should attend:

The seminar and workshop are free and open to all relevant professionals.
